Eco Route

Boost your drivers' efficiency with smarter navigation

With the smartest routes and state-of-the-art maps, the TomTom PRO 9150 gets your drivers to their destinations in the best possible time.

1. Smart Routes

- IQ Routes® uses real speed data to calculate the fastest route for any time of day or day of the week, saving you time and money on fuel.
- TomTom PRO 9150 calculates routes up to one hundred times faster, to get your drivers on their way in no time.¹

2. Best Maps

- Two million km more roads across 45 European countries
- Use TomTom Map Share™ technology to make corrections to your maps, and benefit from thousands of others made by TomTom users every day, our maps are broader and more detailed than ever.
- And with our latest map guarantee, if an update is released within 30 days of your first use, you can download it free from mytomtom.

3. Eco Routes

Driving with these more fuel-efficient routes saves you money as well as reducing your impact on the environment. Your device can show you the route which has a lower environmental impact, using the driving data of millions of TomTom users.

Hands-free calling

Screen size (13cm / 5")

A larger screen for effortless navigation and maximum safety

With the large screen you get clear visual instructions while navigating and easy to use WORKsmart functions to administer trips and jobs while on the road.

- Easily scroll through menus with the new user interface and capacitive Fluid Touch screen.
- Text-to-speech technology gives drivers spoken information, like directions, traffic updates, and even reads out messages – so they can focus on the road ahead.
- The Help Me! menu gives details of local emergency services at the touch of a button: from hospitals to roadside assistance.
- TomTom Speed Cameras³ provides fixed camera warnings, keeping your drivers safe and relaxed and saving you money on fines.
- Hands-free calling allows drivers to use their mobile phones in complete safety and keep in touch while on the road.

² Road Angel is available only in the UK

³ Speed Cameras service is pre-loaded for all countries except Germany and Switzerland
